Chairman's Message
Bismillahir Rahmanir Rahim
Assalamu Alaikum

It is with great pleasure that I welcome you to Pakiza Group. Since Our journey which began in 1982, we have been working with full commitment and endeavor that led us to become the largest manufacturer of sharees, Printed Fabrics, Lungees, Bed sheets, Shirting and Suiting locally in Bangladesh. Like most of the companies, we faced a challenging business environment over the past years during the global economical turmoil. We faced these challenges with great diligence and have succeeded in continuing our significant contribution to the economy of Bangladesh.

Since 2001 we have been supplying knit yarns for garment export. In 2014 we have started our new venture, Pakiza knit composite Ltd, a fully export knit garments manufacturing factory. Through our performance and feedback from our clients we have a positive sign that our export will grow over the years yet to come. To support our export, we are also expanding vertically and horizontally.

PAKIZA GROUP

1982

Mr. Rafiqul Islam Khan, Chairman Pakiza Group Starts Pakiza, a small retail store selling sharees And printed fabrics.

1984

A local dyeing and printing factory, starts Production. The factory at present dyes, prints and finishes sharees, salwar kamiz, shirting and Printed fabrics.

1991

High public demand leads the chairman of Pakiza Group to establishes a second local dyeing, Printing and finishing factory named.

At present the factory is the largest local dyeing, Printing and finishing factory in Bangladesh.

1992

Pakiza's local woven fabric producing factory, opens. It has 274 looms at present and now produces 6 million yards of grey woven fabric for Sharees, printed fabrics, 3 piece salwar kamiz etc. every year.

1997

Starts its production. This is Pakiza's first spinning mill. It is the most modern spinning mill of its time and produces 5000 tons yarn every year for both knitted and woven products.

2000

Mr. Rafiqul Islam Khan Becomes director of city bank.

2001

Following the success of the first spinning mill, Pakiza launches its second spinning,

It has the capacity to produce 40 tons yarns per day for export knit garments.

In 2013 Pakiza knit Composite Ltd was established.

In 2018 Pakiza knit Apparels Ltd. was established.

Our Strength

250 Sewing Machines Sample Room

Our Sample room is set-up with 250 sewing machines and equivalent cutting and finishing set-up.

It is equivalent to 5 production lines producing 50000 pieces garment per month.

With this set-up we can accommodate small **MOQ of 200** pieces. Also this set-up enables us to adapt to Fast Fashion changes and manufacture more number of styles.

Our Strength

Dedicated Team for Digitalization

We have dedicated team who are working with design software like **CLO 3D**.

We are ready to adapt to digitalization and adapt to any 3D software in order to reduce sampling cost and improve our support.

[Click here to view a sample video of our work](#)

Our Strength

We are GREEN FACTORY

Pakiza Knit Composite Ltd. has achieved **LEED (Platinum)** certification from U.S. Green Building Council and Bangladesh Government has awarded **GREEN Factory** award to Pakiza Knit Composite Ltd.

We in Pakiza try to practice most sustainable and eco-friendly production processes to reduce the adverse impacts of textile production on the environment.

Our constant drive to reduce and re-use heat loss throughout our factory enables us to reduce our carbon emission significantly. Our ETP ensures us to safely dispose the waste water to the environment.

We use Solar power as alternate source of energy.
